Scotsman Beverage Systems to change name to Manitowoc Beverage Systems

Halesowen, West Midlands, UK – Effective 28 June 2009, the business name of Scotsman Beverage Systems will become Manitowoc Beverage Systems. This name change follows from The Manitowoc Company, Inc. acquisition of Scotsman Beverage System's parent company, Enodis plc in October 2008.

In addition to this name change, Manitowoc Beverage Systems is integrating the European sales and distribution for the Manitowoc beverage product range, including leading brands Multiplex®, Servend® and Flomatic® with its current products and consolidating the distribution of this enhanced portfolio from its business location in Halesowen, West Midlands, UK.

As Manitowoc Beverage Systems, the company will continue as a leading supplier of beverage dispense equipment renowned for precision cooling technology, delivering unique dispense technology, and supporting clients to continually innovate their global beverage brands. The company's focus going forward will be on developing the business growth for Multiplex, a market leader in high capacity beverage dispense systems; Servend, a leading manufacturer of ice beverage and soft drinks dispensers; and the Flomatic range of post-mix valves.

For more information about the new company structure, brands, innovations, and case studies visit the **NEW** web site www.manitowocbeverage.com.
